1. In view of applicants' arguments the final rejection has been overcome. The following is an examiner's statement of reasons for allowance: the prior art does not suggest or disclose a first layer of fused parallel fibers laminated to a second congruent layer of parallel fibers over a central axially position portion of the first layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. This application is in condition for allowance except for the following formal matters:

The application is objected to because of alterations which have not been initialed and/or dated as is required by 37 CFR 1.52(c). Applicant's arguments have been considered but are not deemed persuasive. As stated in the above patent rule, the altered application papers must be supported by a properly executed supplemental declaration or oath referring to the altered application papers by application number and filing date. Concerning the inability to locate a co-inventor, MPEP 409.03 provides for this situation.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
